FEBRUARY 2023 ROUND UP

INSIDE OUR ASSEMBLY, INSPECTION & PACKING BAY

Here is a look inside our assembly, inspection and packing bay this month.

Sliding plates, u-bolts, clamps and cold shoes are all laid out. They are being supplied to clients and projects (LNG and Petrochemical) in the USA, Middle East, Korea and Thailand.

CPA HAS INSTALLED A CONNECTING ROOF BETWEEN ITS 2 MANUFACTURING BAYS

The creation of additional sheltered area on our premises will enable us to further improve our production efficiencies.

CPA IS SUPPLYING 100's CRYOGENIC SUPPORTS (OR 'COLD SHOES') TO AN LNG EXPORT TERMINAL IN THE USA

CPA is supplying 100's of cryogenic pipe supports (or 'cold shoes') to an LNG export terminal in the USA. The cold shoes will support both horizontal and vertical piping. The cold shoes supporting horizontal piping are supplied with a single leg/base and cold shoes supporting vertical piping are supplied with two legs/bases. They also incorporate center stops and thrust flanges to prevent axial slippage.

The cold shoes are clamped to the pipe using disc springs. This ensures that there is an adequate clamping force after radial contraction of the pipe and insulation. The steel is hot dip galvanized which provides adequate protection against corrosion.

CPA IS SUPPLYING OVER 1,000 PRE-INSULATED CRYOGENIC SUPPORTS, OR 'COLD SHOES', TO GAS CRACKER PLANT IN INDIA

CPA IS SUPPLYING 1000's ANCILLARY ITEMS TO A LOW SULFUR REFINERY IN THAILAND

Ancillary items for this contract include clamps, u-bolts and hold down supports.

Clamps range in size from 0.5" to 54" and are painted according to client specification.
